

Prescription for Colon Hydrotherapy Treatments

Date: \_\_\_\_\_

Patient: \_\_\_\_\_

The above captioned individual is a patient at this office. I am recommending \_\_\_\_\_ colonic hydrotherapy treatments as an adjunctive treatment in the overall health maintenance of this patient.

Therapeutic colonic irrigation helps restore optimum nutrition to the body and aids in elimination of autointoxication effects arising from sluggish or irritable bowels.

Optimum nutrition and reduction of internal toxins have been shown to increase the healing response and shorten recovery time in some chronic disorders.
